

Gaurav Dwivedi

Technical Lead

Working as a Technical Lead in TCS in Lifesciences Domain for a supply-chain project. Leading a team of data scientist involved in data ETL to forecasting demand to visualization. MBA in finance with total 3.5+ Years of experience in leading team including in finance & insurance industry.

Work Experience

Tata Consultancy Services (Jul, 2021 - Till Date) *Technical Lead*

Project : Leading a team of 14 developer for European Pharmaceutical & Healthcare giant Bayer AG. The project is focused on creating and maintaining a dashboard for the supply chain of a major drug. Gives users a span shot of the current inventory level through various graphs and also helps them in planning for future demand. We had various analytics tools built into the dashboard.

With a proven capability to work independently and in teams, mentor co-workers, and communicate with both technical and non-technical audiences, I consistently deliver value to clients.

Project Scope :

- R language along with Shiny, dplyr, data.table , ggplot2
- AWS EC2, RDS, ECS, lambda
- Git Gitlab
- Python for demand/supply calculation and forecasting
- Docker

ICICI Prudential Life Insurance (Sep, 2018 - Oct, 2019) *Manager*

Janalakshmi Financial Services (May, 2017 - Jun, 2018) *Assistant Manager*

Air Force Station, Viman Nagar, Pune, Maharashtra
